

# Internships

Experience what P&G can offer you

On a P&G internship you will see through your own eyes the kind of challenges we face everyday. If you are brimming with enthusiasm and have a passion to learn we can offer you a unique opportunity to try out P&G for yourself. By experiencing real work and real challenges that are integral to our business you will be given the opportunity to demonstrate your skills and see what life at P&G is really like, the good and the bad.

You will participate in introductory training sessions on arrival and from then on we will guide and coach you as well as giving you access to our internal Learning and Development programmes. Within your work you will be expected to demonstrate initiative and leadership whilst learning on the job. Our internships vary in length but generally run for at least ten weeks.

Internships are designed for students in their final or penultimate year of study from all degree disciplines and backgrounds.
